

Results of CapitolRiver Council's Downtown Billboard Survey

Last month, CapitolRiver Council asked for your help in determining which downtown billboards we'd like to see removed. Thank you to the many people who completed our survey and gave us input! We have passed the survey results on to the City Council, which is working to target billboards for removal throughout the city as part of an agreement with advertisers wishing to install digital billboards.

The top three billboards identified for removal by survey participants in downtown, correlated to the map below are:

- 1) # 15
- 2) # 5
- 3) #6

Thank you again for giving us your feedback.
